The Association of Equipment Manufacturers (AEM) announces its newest Milestone Members,” companies who have supported the off-road equipment manufacturing industry through their longtime participation in AEM.

AEM numbers 900-plus members, including more than 100 “milestone” companies, who have been continuously active in the Association for 25 years up to 100-plus years, dating back to its founding in 1894.

The newest AEM “Milestone Members” each attained 25-year status in 2013:

- Atlas Copco
- Cascade-Canada
- Knapheide Manufacturing

The companies were honored during a special ceremony at the AEM annual conference in early November in Orlando, Fla.
