Paul Burton has been appointed vice president of engineering at Paladin Construction Group, where he will focus on research and development, new products, configure-to-order/engineer-to-order support and improving project launch accuracy. He will be responsible for directing and managing engineering resources for brands including Bradco, CP, FFC, Harley, JRB, McMillen and Sweepster.

Burton has more than 30 years of experience, which began in 1978 working with Caterpillar Tractor Company, where he also graduated from CAT's Management Training Program. He started at Paladin in 1982 at FFC, and most recently was director of engineering for Paladin Light Construction.
