KENT, OHIO – The Davey Tree Expert Company, based here, recently acquired Lawn Logic Landscaping, LLC, in Davie, Florida. This brings the company's total number of acquisitions this year to five, following Maier Forest and Tree in Rochester, Minn., Superior NW Tree & Shrub Care, Inc., in Seattle, Wash., Cortese Tree Specialists in Knoxville, Tenn., and Wetland Studies and Solutions, Inc., in Gainesville, Virginia.

Davey Regional Manager Jason Bassler will work on integrating Lawn Logic into the Davey family. Also joining Jason in the new management team will be Assistant Branch Manager Manny Nassar.

Lawn Logic has offered many aspects of commercial landscape care to the southeast Florida area for more than 10 years, including landscape maintenance, tree maintenance, fertilization and irrigation.

Pat Covey, chief operating officer of Davey U.S. operations, stressed that, for Lawn Logic's clients, many things would remain the same. "Additionally, Lawn Logic employees will now have access to the Davey Institute, an industry-leading diagnostic and research facility to assist us with our landscaping needs," Covey said.
