### **Problem:**

Switching attachments to pick up trees, and then pick up pallets.

### **Solution:**

Pallet Paws forks from DPM, Inc. lay flat to be used as regular pallet forks, but they are hinged in the back and rotate up to the perfect angle as you grasp any kind of product.

Heavy-duty, double-cylinder action moves both forks at the same time inward and outward. Offers a 5,000-pound carrying capacity and 72 or 80-inch fork lengths.

Find out more by visiting DPM, Inc. online at [www.nurseryjaws.com](http://www.nurseryjaws.com), or call 800-669-4408.

### **Problem:**

Tired of spinning your rubber tracks and/or wheels trying to plow snow with little or no traction?

### **Solution:**

Bair Products' Bair Claws ice and snow traction enhancers will save your sanity and install in seconds. Each "claw" is removable and reusable as needed. Installs with a .25-inch 5/16 socket and air impact or hand ratchet.

For more details, contact Bair Products, Inc. at 913-947-3934 or online at <http://www.bairproductsinc.com>.
