ATLANTA, Ga. – [Takeuchi-US](#), a global innovation leader in compact equipment, has announced [Rob's Hydraulics, Inc. \(RHI\)](#) as their newest dealer serving eastern North Carolina. Located in Grimesland, North Carolina, they will carry the full line of Takeuchi compact earthmoving equipment, including compact excavators, compact track loaders, compact wheel loaders and skid steer loaders.

Founded in 1997, RHI is a locally owned full service dealer with a variety of services both in shop and on site for heavy construction equipment. They provide heavy equipment repair, hydraulic repair, machining, welding and line boring. They will sell Takeuchi equipment in Carteret, Craven, Beaufort, Edgecombe, Greene, Martin, Pitt and Wilson Counties.

"We are very excited to begin our partnership with Rob's Hydraulics, who has had substantial growth over the years and has become a big player in the area they serve in North Carolina," said Kim Robinson, Takeuchi director of sales. "They are a hands-on dealer who has made and sustained a growing list of customers due to their strong work ethic, knowledge of every aspect of their business, and always treating the customer as number one. Their values very much align with ours and they are a natural fit for us as a dealership."
