GAINESVILLE, Ga. – The Fockele Garden Company, headquartered here, recently acquired the accounts and assets of KMA Gardens, an Atlanta-based landscape design, build, and maintain company.

KMA Gardens, founded in 1995, specializes in residential landscapes with a focus on environmental sustainability. KMA Gardens Owner Kathy Montgomery will have an active role and continue to serve customers as they're transitioned to The Fockele Garden Company.

"Although KMA Garden's customers will now be served under the umbrella of The Fockele Garden Company, Kathy's expertise and creativity, and her intimate knowledge of her customers' gardens, will all still be available to customers," The Fockele Garden Company President says Mark Fockele, president of The Fockele Garden Company.

"Customers will see some of the same faces working in their garden as well as a few new ones. Due to shared philosophies and values, and shared commitment to excellence, we expect that the staff of KMA Gardens and that of The Fockele Garden Company will integrate smoothly."
