BLOOMINGTON, Minn. – [Toro's Dingo](#) compact utility loader has over 30 attachments to provide unprecedented versatility to the entire Dingo product line.

Toro Dingo attachments can help rental customers complete countless projects from augering and earthmoving to trenching and tilling. All Toro attachments feature the Toro Quick Attach System, which allows the operator to change out attachments in a matter of seconds.

**Toro's line of attachments include:**

- Grapple rake
- Tree fork
- Adjustable forks
- Bore drive head
- Rod & reamer kit
- Vibratory plow
- Trench filler
- High-speed trencher
- High-torque trencher
- Stump grinder
- High-torque auger power head (various sized augers)
- Universal swivel auger power head (various sized augers)
- Soil Cultivator
- Power box rake
- Standard bucket
- Loose materials bucket
- Narrow bucket
- TX 1000 standard bucket
- TX 1000 high-volume bucket
- Cement bowl
- Hydraulic forks
- Hydraulic concrete breaker
- Multi-purpose tool
- Utility blade
- Concrete breaker

“Simply put, quality attachments are what make compact utility loaders so versatile,” says Sean O’Halloran, marketing manager at Toro. “Rental houses and their customers face a variety of application needs, and we believe that it is extremely important to be able to provide the right tool at the right time. With over 30 attachments available, we believe we are doing just that.”
